DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, drawn to a first method of forming a canola protein isolate, including a step of decreasing the color of the isolate.

Group II, claim(s) 14-18, drawn to a second method of forming a canola protein isolate, including either using antioxidant in the aqueous solution.

Group III, claim(s) 19-54, drawn to a third method of forming a canola protein isolate, including washing the canola seed meal with an alcohol.

Group IV, claim(s) 55-58, drawn to a fourth method of forming a canola protein isolate, including extracting the canola protein isolate with an aqueous alcoholic solution.

Group V, claim(s) 59-60, drawn to a fifth method of forming a canola protein isolate, including pasteurizing the concentrated protein solution.

Group VI, claim(s) 62-62, drawn to a sixth method of forming a canola protein isolate, including inactivate myrosinase contained in the oil seeds.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: As for instance, Group I comprises a step of decreasing the color of the isolate whereas claims 14, 19, 55, 58, and 62 do not have; Group II comprises using an antioxidant in the aqueous solution whereas claims 1, 19, 55, 59, and 62 do

Art Unit: 1655

not have; Group III comprises washing the canola seed meal with an alcohol whereas claims 1, 14, 55, 59, and 62 do not have; Group IV comprises extracting the canola protein isolate with an aqueous alcoholic solution whereas claims 1, 14, 19, 59, and 62 do not have; Group V comprises pasteurizing the concentrated protein solution whereas claims 1, 14, 19, 55, and 62 do not have; Group VI comprises inactivate myrosinase contained in the oil seeds whereas claims 1, 14, 19, 55, and 59 do not have, the special technical feature is not unified in the claims. Accordingly the groups are not so linked as to form a single general concept under PCT Rule 13.1., and therefore lack of unity of invention exists.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 1655

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to QIUWEN MI whose telephone number is 571-272-5984. The examiner can normally be reached on Monday through Friday: 8: 30 am to 5: 00 pm.
